How to Behave in Public Places

It is important to behave well in public places because we need to respect others and ourselves.

Firstly, we should have good manners in the supermarket. We should not run fast when pushing the shopping cart or talk loudly on the phone. Instead, we should wait patiently at the cashier and talk softly on the phone. Also, we should have good manners in the restaurant. We should eat quietly and speak politely to the waiter. Eating noisily or speaking rudely to the waiter are not acceptable behaviour.

Moreover, we should have good manners at the cinema. We should not arrive late or talk loudly. We should arrive early and talk softly.

To sum up, we should have good manners in public places and be nice to all people.
