Advice on Good Manners in Public Places

It is important to behave well when we are in public places.

Firstly, we should behave well in the supermarket. We should not run when pushing the shopping cart. We should push the shopping cart carefully. Besides, we should not cut the line when we wait for our turn to make payment because it is rude. We should wait patiently at the cashier.

Secondly, we should have good manners in the shopping mall. We should not run in the shopping mall because we may hurt other people. We should walk slowly and patiently when it is crowded. We should not shout at one another because it is rude. We should put the rubbish in the rubbish bin so that we can keep the place clean.

To sum up, we should have good manners in both the supermarket and the shopping mall.
